

Generalities

The miniature electric connector allows a traditional compact connection with picosol solenoid valves.

This connector is recommended for miniaturized electric components.

Technical data

Fixing position	: 4 positions, rotated by 90°
Fixing	: central screw M3
Number of contact	: 2 poles
Contact material	: tinned brass
Wire cross-section	: 0,25mm ²
Material	: Polyester, Glass-filled UL 94V-0
Insulation class	: IP 65 - DIN 40050
Temperature	: -40° à +105°C
Max. Current	: 3 A
Max. Voltage	: 250 V
Contact resistance	: < 15mΩ

Order number

Connector w/ wire L=300 mm : C-11010
Connector w/ wire L=600 mm : C-11020
